Empowering People Through Knowledge

Ontario Use of Force Theory:

Security personnel are placed into difficult situations daily while on the job. These situations require rapid reaction based on split second decisions. Often, incorrect decisions are made due to lack of training and confidence. Use of force training is the area of greatest risk to personnel and it is typically the most difficult and expensive training to obtain.

We offer low-cost training programs to security personnel to increase their safety and effectiveness. Our certified instructors can help your business and staff formulate educated decisions based on current Ontario Use of Force Theory, reducing the possibility of unnecessary negative encounters. The program is designed to meet and exceed the Ministry requirements.

For your scheduling convenience, training can be conducted on-sight in as little as four hours.

Topics Include:

- Environmental Impact on the Individuals
- Use of Force Models
- Application of the Use of Force
- Powers of Arrest
- Trespass to Property Act
- Liquor License Act

Administration:

- Materials/books will be provided.
- Certificate of participation will be issued.
- Training fee \$150 each.
- 4 hour program—on-site.
